ABOUT SOLE

We'll Move You

SOLE Treadmills are preferred by hotels nationwide for In Room Fitness programs. SOLE manufactures fitness equipment that both performs and holds up under rigorous hotel use and conditions. Engineering for hotel use and offering unsurpassed quality has been SOLE's evolution into residential sales as well as light commercial offerings.

Whether you want to ditch your gym membership for working out at home, or you want to start a small gym, here you will find the equipment that meets your specific needs at a price you'll appreciate. SOLE has the treadmills, ellipticals, and exercise bikes to make any fitness center complete, regardless of whether that's in your basement or in your local community. SOLE fitness equipment has received numerous "Best Buy" reviews and ratings year in and year out from the most reputable consumer review sites and magazines.

"The attention they have put into the quality of their machines has paid off making them a strong player in the market over the long term."

by **Treadmill Doctor**
The Most Trusted Name In
Fitness Equipment

Treadmill Features

At SOLE Fitness, we believe that the quality of the equipment affects the quality of the workout. So our engineers and designers constantly improve on timeless design, to provide a complete treadmill line that has received consistent Best Buy reviews from consumers and review agencies alike, over the past decade.

 Sound System with 2 way Cable

 Convenient Speed & Incline Controls

 Cushion Flex Suspension System

 Easy Assist Folding Design

 Double Horseshoe Folding Frame

 Cushion Flex Suspension System

A unique design to any type of treadmill on the market, this deck provides our users with a comfortable and quiet workout. In a recent study our cushion flex has proven to reduce impact of up to 40% as compared to running on asphalt.

 Easy Assist Folding Design

With safety and quality in mind. SOLE has developed an easy to assist folding design. At the flip of a switch the deck will unfold itself slowly without need for assistance, as well as fold back securely and easily into upright position.

 Double Horseshoe Folding Frame

This design was built for hotel needs. The treadmill needed to be as mobile as possible while still providing an efficient workout. Our easy to move design resulted in an all-steel welded frame that is more stable than most non-folding frames.

 Convenient Speed & Incline Controls

Built in speed and incline controls in our handrails add ease of use and unparalleled control during your workout.

 Sound System with 2 way Cable

The workout just got easier. the sound system allows for anyone with a music device to be able to listen to their music during their workouts.

Treadmill Console

At SOLE Fitness, we've focused on the details. Like a more-informative LCD screen which clearly displays the stats of your workout. Our treadmills also have convenient easy to reach buttons with speed and incline adjustments right on the handrails to give you control you need it during your workout.

Hill

Resistance in the pedals will steadily increase and then decrease during the program, simulating hill climbs.

Fat burn

Maximizes the burning of fat. A lower exertion level staying at a steady workload is the best. Keep heart rate at around 60% to 70% of its max HR for best results.

Cardio

Increases cardiovascular function and endurance. It will build up heart muscle and increase blood flow and lung capacity. Incorporates a higher level of exertion with slight fluctuations in work.

Strength

Increases muscular strength in lower body. Increases in resistance to a high level and forces a user to sustain it. Strengthens and tone legs and glutes.

Interval

High levels of intensity followed by periods of low intensity. Increases endurance by depleting oxygen levels followed by periods of recovery to replenish oxygen. The cardiovascular system gets programmed to use oxygen more efficiently this way and aids in heart rate recovery from intense activities.

User Program

Allow users to program and save their own desired workouts, including speed, incline and/or intensity adjustments.

Fit Test

Provides a score calculated from a user's Heart Rate test. Helping to determine a user's health condition; ranging from excellent to poor.

Heart Rate Programs

A users target heart rate will automatically dictate to the machine at speed, incline and/or intensity it needs to operate within in order to maintain the users heart rate.

F60

SOLE Introduces Its Most Affordable Treadmill Ever

The F60 treadmill is one of the newer editions to the SOLE lineup. SOLE has always prided itself on the quality and value of our machines. We are confident that the F60 is well on its way to becoming another best seller.

"Sole, a leader in the treadmill industry, has something for everyone. The folding F60 is their most inexpensive treadmill with good components and no frills."

by **treadmill**
REVIEWS.NET

Key Features

Large Running Surface

F60 is equipped with a large 20" x 60" running deck with cushion flex suspension and a strong 2.75 chp motor and easy-assist folding design.

Specialized Workout Programs

Along with design value the F60 comes with 10 standard programs and a very detailed, informative display console, which will provide users with beneficial feedback during and after workouts.

Precision Welded Frame

Accurate and precise welding is important when designing a treadmill. Durability of a product begins with a strong frame, capable of handling multiple users of various weights and heights.

Sound System with 2 way Cable

The console has built in speakers / sound system that will make an hour long workout feel like minutes.

F63

To Please, Built To Perform

The F63 treadmill has been reviewed as "Simply the best quality treadmill in its price range" by numerous consumer resources and magazines. "At this price, the F63 is an unbelievable value." SOLE has earned the reputation of building quality treadmills using the best components, the F63 holds true to this even at a lower price.

"F63 When it comes to quality, this is the best treadmill right now below its price range."

by **TREADMILLTIPS.COM**

Key Features

Premium Components

The strong, 3.0 Cont. Duty HP motor delivers challenging speeds up to 12 mph and inclines up to 15%. And when not in use, the treadmill deck safely locks into place, 100% secured.

Specialized Workout Programs

Run up to six preset programs including cardio training and fat burning specific programs. Other safety features include a large stop switch, starts from only 1.0 mph and low-profile running hood.

Vibrant Blue LCD Display

The F63 console is user friendly with a vibrant blue display. The information that is displayed at all times includes Speed, Incline, Time, Distance Traveled, Calories, Pulse and Pace. There is also a 1/4 mile track feature and a Peak and Valley graph for different programs.

Sound System with 2 Way Cable

The console also has built in speakers which allow you to hook up any MP3 player (iPod, etc.) for easy listening.

F80

Rated and Reviewed as The "Best Buy"

The F80 treadmill has been reviewed as "The best treadmill in its price range" by both consumers and numerous consumer resources. The F80 treadmill steps up to an industry leading warranty and the Cushion Flex Whisper Deck, shown in a study to reduce impact up to 40% (.365 - .400) as compared to running on asphalt.

"Sole F80 -Best Buy winner for its price range. Sole made some really good upgrades to the F80 for 2011 and then left the pricing alone. Good move!"

Key Features

Premium Motor

The strong, 3.5 Cont. Duty HP motor delivers challenging speeds up to 12 mph and inclines up to 15%. And when not in use, the treadmill deck safely locks into place, 100% secured.

Easy Assist Folding

SOLE's folding treadmill frame design for the F80 originated from the demand of hotels for a treadmill as mobile as a room service cart, yet still stable and powerful. So whether it's a hotel room or your living room, you have the best of both worlds.

Specialized Workout Programs

Run up to six preset programs, two customizable workout programs and two heart rate programs. Other safety features include a large stop switch, starts from only 0.5 mph and low-profile running hood.

Vibrant Blue LCD Display

The treadmill console is user friendly with a vibrant display. The information that is displayed at all times includes Speed, Incline, Time, Distance Traveled, Calories, Pulse and Pace. There is also a 1/4 mile track feature and a Peak and Valley graph for different programs.

TT8

Light Commercial Treadmill

Compare Anywhere; The TT8 is Miles Ahead Of The Competition.

The TT8 is an engineering marvel in every sense. TT stands for twenty-two as in twenty-two inches wide. The TT8 treadmill offers a twenty-two inch wide running surface designed to give runners an extra safe and comfortable feel. The extra width truly lets runners run freely without having to think about where they're positioned on the treadmill at all times.

"Sole TT8 is the biggest and most powerful treadmill from Sole this year. It still comes with great quality, numerous features, and long warranties that Sole has been known for."

Key Features

Ultra-durable Frame

TT8 offers a grated reinforced framework, perma-waxed reversible deck, with 3" crowned rollers, which offers any runner uncompromising quality for years and years of use. When compared to other models, the SOLE TT8 is miles ahead of the competition in quality, performance, and value.

Oversized Running Surface

TT8's running surface is the largest SOLE has at 60" X 22". It comes standard with a 2 ply belt that adds even more to the feel of the treadmill as well as longevity. The TT8 also offers a top speed of 12mph and a top incline of 15% to give you a variety of options for interval workouts.

Cushion Flex Suspension System

The TT8 treadmill has the same great Cushion Flex Deck that other SOLE models have to minimize stress to hips, knees and ankles.

Heart Rate Control

The TT8 also comes with Heart Rate Control, complete with a Polar chest strap, to keep you on target for heart rate training. Additionally the TT8 incorporates a cooling system which allows for extended usage with multiple users or long runs without the potential of overheating.

Light Commercial Treadmill

ELLIPTICAL SERIES

At SOLE, we make the perfect elliptical trainer, which combine natural human movement and exercise effectively to simulate the suitable pattern your foot travels during a smooth, continuous, elliptical motion that is comfortable the entire time.

More importantly, look for innovative fitness ideas from SOLE that have dedicated fitness people in mind. These ideas will make it easy for people to stay in shape, or follow a fitness plan regardless of where they are.

"These are large, impressive machines. And the new Sole ellipticals for this year have even gone above and beyond last years models."

by **ELLIPTICAL TRAINER REVIEW**

Residential Elliptical: 95

Elliptical Features

The SOLE elliptical is designed to wrap around you, so you can forget about the machine and focus on your fitness experience. SOLE ellipticals give you a high intensity workout with low impact on your body. In fact, our front-drive elliptical line has received numerous "Best Buy" reviews from leading consumer magazines, and consumers alike.

Multi-grip Position Handles

Convenient Resistance and Incline Controls

2 Degree Inward Custom Designed Foot Pedals

Adjustable Foot Pedals

Power Incline

Multi-grip Position Handles

This innovative design enables users to find the most comfortable and ergonomic positions on the handle, making the workouts more enjoyable than ever.

2 Degree Inward Custom Designed Foot Pedals

These unique foot pedals were developed in collaboration with a leading physical therapist. Together with SOLE engineers, we have designed a 2 degree inward slope to the foot pedals which reduce ankle and knee stress common in other elliptical machines.

Power Incline

Our ellipticals have a power incline feature which offers additional resistance and variable positions in your workout at the touch of a button. The ramp angle is adjustable from 0 to 30 degrees, allowing you to work all lower body muscle groups.

Convenient Resistance and Incline Controls

Adjustable incline and resistance controls built into the arms make it easy to change your workout without ever moving your hands.

Adjustable Foot Pedals

This collaboration produced a revolutionary foot pedal angle adjustment not found on any other elliptical. Not everyone walks the same way; for this reason we have made the pedals adjustable to fit the way you walk. This feature also reduces the numb toe effects and sore Achilles tendons.

Elliptical Console

For the new 2013 models, we've also enhanced the LCD display. It's more vibrant, informative and visually accessible. The LCD display tilts easily to match your eye-line, bringing your stats and information to you.

Hill

Resistance in the pedals will steadily increase and then decrease during the program, simulating hill climbs.

Fat burn

Maximizes the burning of fat. A lower exertion level staying at a steady workload is the best. Keep heart rate at around 60 % to 70 % of its max HR for best results.

Cardio

Increases cardiovascular function and endurance. It will build up heart muscle and increase blood flow and lung capacity. Incorporates a higher level of exertion with slight fluctuations in work.

Strength

Increases muscular strength in lower body. Increases in resistance to a high level and forces a user to sustain it. Strengthens and tone legs and glutes.

Interval

High levels of intensity followed by periods of low intensity. Increases endurance by depleting oxygen levels followed by periods of recovery to replenish oxygen. The cardiovascular system gets programmed to use oxygen more efficiently this way and aids in heart rate recovery from intense activities.

User Program

Allow users to program and save their own desired workouts, including speed, incline and/or intensity adjustments.

Fit Test

Provides a score calculated from a user's Heart Rate test. Helping to determine a user's health condition; ranging from excellent to poor.

Heart Rate Programs

A users target heart rate will automatically dictate to the machine at speed, incline and/or intensity it needs to operate within in order to maintain the users heart rate.

E20

The Most Affordable Quality Elliptical Ever.

Introducing the newest member to the SOLE Elliptical family, the SOLE E20 was designed to meet your needs and your budget and has all the features you need to meet fitness goals and look good while doing it. Maximize your time and effort by getting a total body workout that is easy on your joints for incredible results that you will absolutely love.

"The E20 packs a lot of value with traditional Sole quality. Our 1st Runner Up in the Best New Elliptical Category."

Key Features

Premium Components

The combination of a heavy 21 pound flywheel and a high gear ratio means you get an extremely smooth feel with 16 levels of resistance for a challenging workout. The E20 also has a power incline feature which offers additional resistance for diversity in your workout.

User Friendly Design

Simply press the incline button to adjust the ramp angle from a level plane up to 20 different levels. The E20 also can monitor HR with any standard wireless chest strap or a user can take advantage of the built-in pulse grips as well.

Comfort Level

You'll enjoy a smooth and natural workout with its long stride length. There's no danger of stress and strain either as oversized foot pedals with 2 degrees inward slope maintain your body's natural motion and reduce impact to the joints, while large foot beds deliver optimal user comfort.

Vibrant Blue LCD Display

Additional features like the easy-to-use electronic console with a backlit LCD display lets you track your progress and get readings while a built-in cooling fan and water bottle holder keep you fresh even while training intensively.

E35

Fluid, Stable, Smooth...

Rated as a "Best Buy" by the leading consumer websites and "The Best Buy" by leading consumer magazines for quality and value. Easy to use electronic console with a blue back lit LCD display. Includes a built-in cooling fan and water bottle holder. The console also has built in speakers which allow you to hook up any music device for easy listening.

"The Sole E35 continues to impress reviewers with its combination of durability, function and value."

Key Features

Whisper Quiet Drive System

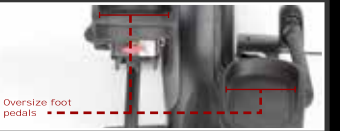

Fluid natural motion provided by the whisper quiet drive system. The combination of a heavy 29 lb. flywheel and a high gear ratio means an extremely smooth feel with plenty of resistance at the top end for a machine that will provide a challenging workout.

Stationary Handle Bars

Stationary handle bars with built-in pulse sensors for monitoring your heart rate. A heart rate chest strap is also included for hands free pulse monitoring and heart rate interactive programs.

Oversized Foot Pedals

Oversized foot pedals for a comfortable workout. These unique foot pedals were designed in collaboration with a leading physical therapist and sports enthusiast. SOLE engineers have designed in a 2 degree inward slope to the foot pedals which reduce ankle and knee stress.

Stable Frame

The four real wheels which ride on heavy duty rails provide a smoother more stable feel and reduce side to side foot pedal motion. A feature found only on more expensive models.

EXERCISE BIKE SERIES

SOLE Exercise Bikes combine the beauty of comfort and affordability into one. Workouts don't require being uncomfortable. The terms should all be set by the user, when, where, for how long, all these factors determine the comfort level of a workout. With that in mind SOLE went about designing our exercise bikes to meet our users' needs. The natural comfortable feel of the SOLE Exercise Bikes is created with an ergonomic design, adjustable seating and a large easy to view console display.

"Sole Fitness exercise bikes are built specifically with user comfort in mind...seat rests that are fully adjustable to accommodate users of various shapes and sizes."

by **FitnessHealth**

Residential Exercise Bike: [B94](#)

Exercise Bike Features

At SOLE Fitness, our engineers designed the Exercise Bikes with total comfort in mind. Featuring three compact profiles—Recumbent, Spin and Upright—you can select the one that fits your exercise style. Using only premium components, we focused on ergonomic design, without giving up stylish appearance.

SB700

Intensity...Not a Problem

The SOLE SB700 takes users to the next level of exercising and is satisfactory to both the Indoor and outdoor cyclist. Understanding the needs of both types of users, SOLE combined them together to design a comfortable, affordable bike allowing users to have the dual experience in the comfort of their own home or Light Commercial setting.

"The Sole SB700 also gives you a quiet and stable ride, an attractive 48lb chrome flywheel plus Sole also includes an electronic console to monitor your fitness routine."
by AboutBicycles.com

2° Pedal Design

The ergonomic design of the SOLE Bikes is unique because of our specific pedal design. The 2 degree inward cant on the pedal prevents aches in the knees and feet from occurring by aligning the joints in their correct posture during a workout.

Adjustable Seating

Allows a user to move forward and backward on the seat as well as the back rest. Because all users differ in height it's important to have the freedom of finding that perfect comfort level during a workout.

Display

Easy console viewing prevents workout frustrations. Displaying workout info on a large screen is vital for meeting workout goals. Easy viewing means less distractions and more achievement.

Frame

A strong durable frame is vital for Light Commercial bikes. Heavy Steel tubing along with aluminum shroud makes the SOLE bikes indestructible but light and manageable. Two wheels upfront act as touch points and make moving the bikes easy and convenient.

Key Features

SB700 Indoor Exercise Bike

Adjustable Seat and Handlebars

For indoor cycle enthusiasts, comfort is extremely important. The adjustable seat and handlebars move up and down as well as fore and aft, allowing a user to find just the right settings for a great workout.

Comfort Level

With a comfortable supportive seat that adjusts to users' needs, you can focus less on being uncomfortable and more on getting in shape. Statistics show that people are more likely to stick to a routine on a recumbent bike than other forms of exercise.

Commercial Grade Flywheel

A heavy duty 48 lb chrome plated flywheel and Kevlar breaking design will make certain of a quiet and smooth ride.

Oversized Foot Pedals

Oversized foot pedals for a comfortable workout. These unique foot pedals were designed in collaboration with a leading physical therapist and sports enthusiast. SOLE engineers have designed in a 2 degree inward slope to the foot pedals which reduce ankle and knee stress.

R92

Less Pain but More Gain

Recumbent bikes are becoming the latest trend in the exercise world and the SOLE R92 is leading the pack. The reason; getting a great workout has never been so comfortable and relaxing. To achieve the most comfort in a workout, low impact is extremely important when considering exercise equipment. Users with foot or joint issues will love our R92.

"What makes the Sole R92 stand out from the crowd of recumbent exercise bikes is the large 9 inch blue backlit LCD display console in addition to heart rate control (HRC) programs and chest strap, the sturdy, quiet and comfortable design."
by **About-Bicycles.com**

B94

Comfortable and Compact

When talking about the most popular home exercise equipment for losing weight the stationary bike will always be mentioned. Known for being light weight, durable, easy-to-use and space saving, the B94 will be the perfect piece of exercise equipment for anyone with those needs in mind.

"Sole does not call the B94 Upright a commercial grade exercise bike but this bike has the same quality, durability and features that you see on many commercial grade models"
by **About-Bicycles.com**

Key Features

Custom Designed Foot Pedals

Our patented 2 degree inward design on our foot pedals puts your body in its correct posture, minimizing the aches and pains associated with other models.

Comfort Level

With a comfortable supportive seat that adjusts to users' needs, you can focus less on being uncomfortable and more on getting in shape. Statistics show that people are more likely to stick to a routine on a recumbent bike than other forms of exercise.

Vibrant Blue LCD Display

Our integrated 9" LCD display with its programming is the main reason for this. If you're the type of person looking to be challenged, programs such as hill, User Defined feature or Heart Rate Control will help you reach goals.

Sound System with 2 Way Cable

Along with Fans, MP3/MP4 capability and these programs, the R92 will allow users to consistently and safely push themselves to the next level.

Key Features

Comfort Level

The adjustable gel seat, strong frame and ergonomically designed pedals allow for the machine to conform itself to you instead of the other way around.

Custom Designed Foot Pedals

Our patented 2 degree inward design on our foot pedals puts your body in its correct posture, minimizing the aches and pains associated with other models.

Vibrant Blue LCD Display

The B94's straight-forward programs and 9" LCD display will also provide users with fast effective fat burning and cardio exercises, helping you to spend less time worrying about gimmicky programs and more time focusing on reaching your goals.

Specialized Workout Programs

There are 10 challenging programs to choose from, the B94 will help you find your workout. It's also great for those just starting out and others who are training, feel free to design your own programs using our User Defined feature. It's time to start making this a reality.

International Distributor Info

The SOLE Fitness objective is to continually produce durable, professional and innovative equipment that will continue to not just be a market leader in North America but continue to branch out to the many other international markets as well. With that intent in mind SOLE is proud to have the opportunity to present its line of equipment to the global market. Giving many others the opportunity to experience the advantages of owning quality, affordable fitness equipment regardless of their location in the world.
